Study title	
Authors	
Year of publication	
Aim of study	
Type of study	
Literature type	
Country of publication	
Study population (participants)	
Geographical setting	
Type of service	
(healthcare, education, community)	
Description of community involvement	
Involved community, knowledge users, or stakeholders	
Use of a theory or framework	
Methodology/methods	
Outcome measurement tool	
Type of mental health studied	
Definition of resiliency/protective factors/coping skills used	
Description of resilience or protective factors	
Reported outcomes	
Study main findings and conclusion	
Future implications	
Other notes
