

Appendix 2. Intervention type of trials included in part 1 descriptive analysis

Intervention code	No. of trials
Behaviour	1243
Diagnosis / Prognosis	282
Early detection / Screening	311
Lifestyle	952
Not applicable	15
Other interventions	585
Prevention	1579
Rehabilitation	863
Treatment: devices	1158
Treatment: drugs	2803
Treatment: other	2477
Treatment: surgery	437
Missing	55
Total no. of intervention codes across all trials	12760
Total no. of trials	9450

Note: Up to three different intervention codes can be selected per trial. Therefore, the total number of trials with an intervention code listed is different to the total number of trials.

Full definitions for each of these intervention codes are available at [www.anzctr.org.au/docs/ANZCTR Data field explanation.pdf](http://www.anzctr.org.au/docs/ANZCTR_Data_field_explanation.pdf)
