

**Additional file 2**

21 Items from the Standards for Reporting Qualitative Research (**SRQR**) - Essential for Complete, Transparent Reporting of Qualitative Research (1).

| No. | Item                                       | Description                                                                                                                                                                                                                                                                                                                                      | Section of the manuscript which reports the information that meets the criteria of the checklist |
|-----|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|
| 1.  | Title                                      | Concise description of the nature and topic of the study. Identifying the study as qualitative or indicating the approach (e.g., ethnography, grounded theory) or data collection methods (e.g., interview, focus group) is recommended.                                                                                                         | Title page                                                                                       |
| 2.  | Abstract                                   | Summary of key elements of the study using the abstract format of the intended publication; typically includes background, purpose, methods, results, and conclusions.                                                                                                                                                                           | Page 2                                                                                           |
| 3.  | Problem Formulation                        | Description and significance of the problem/phenomenon studied; review of relevant theory and empirical work; problem statement.                                                                                                                                                                                                                 | Introduction, page 3                                                                             |
| 4.  | Purpose or research question               | Purpose of the study and specific objectives or questions.                                                                                                                                                                                                                                                                                       | Aim, page 4                                                                                      |
| 5.  | Qualitative approach and research paradigm | Qualitative approach (e.g., ethnography, grounded theory, case study, phenomenology, narrative research) and guiding theory if appropriate; identifying the research paradigm (e.g., post-positivist, constructivist/interpretivist) is also recommended; rationale.                                                                             | Approach, page 5                                                                                 |
| 6.  | Researcher characteristics and reflexivity | Researchers' characteristics that may influence the research, including personal attributes, qualifications/experience, relationship with participants, assumptions, and/or presuppositions; potential or actual interaction between researchers' characteristics and the research questions, approach, methods, results and/or transferability. | Data collection, page 6<br>Authors preunderstanding, page 7                                      |

|     |                                              |                                                                                                                                                                                                                                                                                        |                                                                                                                                               |
|-----|----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| 7.  | Context                                      | Setting/site and salient contextual factors; rationale.                                                                                                                                                                                                                                | Setting, page 5                                                                                                                               |
| 8.  | Sampling strategy                            | How and why research participants, documents, or events were selected; criteria for deciding when no further sampling was necessary (e.g., sampling saturation); rationale.                                                                                                            | Sampling strategy, page 5<br>Data collection, page 6<br>Analysis, page 6-7                                                                    |
| 9.  | Ethical issues pertaining to human subjects  | Documentation of approval by an appropriate ethics review board and participant consent, or explanation for lack thereof; other confidentiality and data security issues.                                                                                                              | Data collection, page 6                                                                                                                       |
| 10. | Data collection methods                      | Types of data collected; details of data collection procedures including (as appropriate) start and stop dates of data collection and analysis, iterative process, triangulation of sources/methods, and modification of procedures in response to evolving study findings; rationale. | Setting and sampling strategy, page 5<br>Data collection, page 6<br>Analysis, page 6-7                                                        |
| 11. | Data collection instruments and technologies | Description of instruments (e.g., interview guides, questionnaires) and devices (e.g., audio recorders) used for data collection; if/how the instrument(s) changed over the course of the study.                                                                                       | Data collection, page 6<br>Setting and sampling strategy, page 5<br>Additional file 3 Observational form<br>Additional file 4 Interview guide |
| 12. | Units of study                               | Number and relevant characteristics of participants, documents, or events included in the study; level of participation.                                                                                                                                                               | Setting and sampling strategy, page 5<br>Analysis, page 6-7<br>Results, Table 1, Table 2, page 8                                              |
| 13. | Data processing                              | Methods for processing data prior to and during analysis, including transcription, data entry, data management and security, verification of data integrity, data coding and anonymization / de-identification of excerpts.                                                            | Data collection, page 6<br>Analysis, page 6-7                                                                                                 |
| 14. | Data analysis                                | Process by which inferences, themes, etc. were identified and developed, including the researchers involved in data analysis; usually references a specific paradigm or                                                                                                                | Authors preunderstanding, page 7<br>Analysis, page 6-7                                                                                        |

|      |                                                                                              |                                                                                                                                                                                                                                                                                                        |                                                                                                                                                   |
|------|----------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
|      |                                                                                              | approach; rationale.                                                                                                                                                                                                                                                                                   |                                                                                                                                                   |
| 15.  | Techniques to enhance trustworthiness                                                        | Techniques to enhance trustworthiness and credibility of data analysis,(e.g., member checking, triangulation, audit trail); rationale.                                                                                                                                                                 | Setting and sampling strategy, page 5<br>Data collection, page 6<br>Authors preunderstanding, page 7<br>Analysis, page 6-7<br>Discussion, page 16 |
| 16.: | Synthesis and interpretation                                                                 | Main findings (e.g., interpretations, inferences, and themes); might include development of a theory or model, or integration with prior research or theory.                                                                                                                                           | Results, page 7-14<br>Discussion, page 15-17<br>Conclusion, page 17                                                                               |
| 17.  | Links to empirical data                                                                      | Evidence (e.g., quotes, field notes, text excerpts, photographs) to substantiate analytic findings.                                                                                                                                                                                                    | Results, page 7-14                                                                                                                                |
| 18.  | Integration with prior work, implications, transferability, and contribution(s) to the field | Short summary of main findings, explanation of how findings and conclusions connect to, support, elaborate on, or challenge conclusions of earlier scholarship; discussion of scope of application/generalizability; identification of unique contribution(s) to scholarship in a discipline or field. | Discussion, page 15-17                                                                                                                            |
| 19.  | Limitations                                                                                  | Trustworthiness and limitations of findings                                                                                                                                                                                                                                                            | Discussion, page 15-17                                                                                                                            |
| 20.  | Conflicts of interest                                                                        | Potential sources of influence or perceived influence on study conduct and conclusions; how these were managed.                                                                                                                                                                                        | Discussion, page 15-17                                                                                                                            |
| 21.  | Funding                                                                                      | Sources of funding and other support; role of funders in data collection, interpretation, and reporting.                                                                                                                                                                                               | Page 17                                                                                                                                           |
