

Supplementary File 2 – Standards for Reporting Qualitative Research Checklist

Index	Topic	Section(s)
	Title and Abstract	
1	Title	Title Page
2	Abstract	Abstract
	Introduction	
3	Problem formulation	Introduction
4	Purpose or research question	Introduction
	Methods	
5	Qualitative approach and research paradigm	Design
6	Researcher characteristics and reflexivity	Title Page, Procedure
7	Context	Title Page, Introduction, Design, Procedure
8	Sampling strategy	Participants
9	Ethical issues pertaining to human subjects	Procedure, Ethical Approval
10	Data collection methods	Design, Procedure
11	Data collection instruments and technologies	Procedure, Supplemental File 1
12	Units of study	Participants, Procedure, Table 1
13	Data processing	Procedure, Data Analysis
14	Data analysis	Data Analysis
15	Techniques to enhance trustworthiness	Design, Procedure, Data Analysis
	Results	
16	Synthesis and interpretation	Results, Table 2
17	Links to empirical data	Results
	Discussion	
18	Integration with prior work, implications, transferability, and contribution(s) to the field.	Discussion
19	Limitations	Strengths and Limitations of the Study, Discussion
	Other	
20	Conflicts of interest	Competing Interests
21	Funding	Funding
