

## Appendix D – Impact log

### Patients

Vignettes	Advisor	Discussion	Impact
<b>Research question</b> Key words: importance, relevance			
<b>Proposed methods</b> - <b>Study design</b> Key words: double sham, random allocation, blinding			
<b>Proposed methods</b> - <b>Recruitment process and timings</b> Key words: time intervals			
<b>Proposed methods</b> - <b>Pain medication</b> Key words: 0-24h			
<b>Trial outcomes</b> - <b>Primary outcome</b> Key words: pain impact, pain location, intensity			
<b>Trial outcomes</b> - <b>Clinical course by SMS</b>			

### Clinicians

Vignettes	Advisor	Discussion	Impact
<b>Research question</b> Key words: importance, relevance, clinical practice, gaps in evidence help guiding treatment			
<b>Proposed methods</b> - <b>Recruitment process</b> Key words: clinician information form, recruitment process, timing, referring process			

<b>Proposed methods</b> - <b>Pain medication</b> Key words: 0-24h			
<b>Trial outcomes</b> - <b>Primary outcome</b> Key words: pain impact, pain location, intensity			
<b>Trial outcomes</b> - <b>Non-inferiority margin</b> Key words: 0.75 points on PEG ignorable			
<b>Referral Network</b> Key words: GP referral network
